*Magic does exist. It is created when we face the unknowable or when we see the impossible performed right before our eyes.*

-- Steffan Soule

Every day Steffan Soule expertly shows people that anything is possible! He weaves a visual tapestry of dazzling magic into a variety of theatrical shows: the audience laughs and their heads shake in astonishment as they see lights fly around Steffan and turn into fire. A volunteer narrowly escapes an impossible wrapping of ropes tied through his own jacket and sees a signed \$100 bill vanish from his hand, only to appear embedded in a lemon moments later.

Steffan's magic is recognized with a Kennedy Center Award for the Arts. He has performed on National Television, twelve times for Bill Gates and in hundreds of corporations nationwide. His show entitled "The Magic of Recycling" is sponsored by the Department of Ecology. Steffan recently unveiled his "Process Magic" experience which gives corporate audiences a practical stimulating approach to accomplishing the impossible.

As designer and co-producer of two million-dollar-magic-theatres custom built for his shows Steffan Soule performed the longest running magic show on the West Coast, "*Mysterian*". The show's five year run featured some of the greatest magic in the world according to magicians, critics and magic historians.

Steffan and his wife, Barbara are based in Seattle where their performances are well known in the arts scene. They have worked with the Seattle Symphony, Pacific Northwest Ballet, Seattle Repertory Theatre, The Fifth Avenue Theatre, Village Theatre, and Seattle Children's Theatre. Currently, Steffan Soule performs for theatres, corporate events and private parties while creating new works with artist Cooper Edens and their magic ensemble.
